Automatic Pineapple Peeler KA-851 Spec Sheet

Automation meapping total 107 our open officer			
Model		odel	KA-851
			320mm(W) × 580mm(D) × 1180mm(H) *Including base, Upright position
Size			320mm(W) × 580mm(D) × 910mm(H) *Including base, Incline position
			*Numbers above are with a High-type base.
			Using a Low-type base, shorten the height (H) by 150mm.
Weight			Main unit 16kg, base 8 kg, dust box 2kg
Power supply		cunnly	AC100-240V 50/60Hz
		зирріу	(3P grounding-type plug) * Overseas specifications available
Power		wer	250W(max) / 5W(standby mode)
consumption		mption	
Performance	Use for		Pineapple (Melon, Mango, Pumpkin (Kent))
			*Option parts sold separately
	Fruit size		Pineapple: height100~170mm(diameter: 60~160mm)
			Melon:height 130~220mm(diameter:~180mm)
			Mango: height 100~160mm
			Pumpkin (Kent): height 80~150mm(diameter: ~200mm)
			*Mango and pumpkin are recommended to peel without tilting.
	Process		Pineapple: 6 / minute, not including loading time
	time		
	Continuous		Unlimited
	operation		(10 minutes interval recommended every 2 hours)
	Inspection		Required (by metal detection)
Environment	Temperature,		0~40°C 0~85RH% (Relative humidity)
	humidity		
	Water/ dust		IP54 equivalent (except for the bottom)
	proof		
		Main unit	Flow water, shower (high pressure cleaning not possible)
	Cleaning	Base	Washable
		Dust box	Washable
		Arm	Washable (dishwasher, alcohol, hypo-water available)
		Pins	
		11115	Washable (dishwasher, alcohol, hypo-water available)
Material			SUS303/304/304WPB/420J2(Blade)/430/440/ POM
Maintenance			Wash it at least once per day when in use.
		enance	Check that all parts are functioning correctly.
Warranty			One year from purchase or within 1,000 hours of total usage time
Inspection			After completion of installation and operation, check
conditions
